It provides parents & families with key data related to their child's success, including grades, attendance, and behavior, in one location and will support in-app chat, email, and live translation for more than 60 languages. \*Note: All data is pulled directly from eSP. #### Notas de la Familia Owl (continuadas)

Welcome new and old owl parents!

I will be starting our official *Student Article*. Before I get to the reason why I chose to start this, I would like to introduce myself. My name is Jacklynn Broussard, a senior here at White Oak (I'm almost free!). I plan on majoring in Journalism with a minor in International affairs so I will be able to become an international correspondent. Over the summer, I was accepted into the Asian American Journalist Association (AAJA). This program specializes in helping students experiment in various different fields associated with the journalism field. I prefer to be the person that writes the news than broadcast the news. During the program, we were assigned a topic that would be published to showcase our individual works. Along with finding out what particular pathway worked for us, we learned how to network with many people who held powerful and useful positions. I had the chance to network with several people at CNN, the New York Times and a couple of overseas media outlets. This summer was one that has successfully set me up for numerous opportunities to intern and possibly study abroad.

Thankfully, I had taken notes and decided that I could put everything I learned to use and this article will be another step in securing my bag in jump-starting my career. This article is basically where I will put my thoughts and school events.
